Data feed providers

Core data-feed supplier

dun & bradstreet

Data is extendable – e.g. we can easily **extend** the data; (BitSight, Refiniv, Lexis Nexis, Dow Jones FACTIVA, ComplyAdvantage, Acuris Risk Intelligence, and others...)

API data feed supplier universe

Cloud technology provider

Buyers

Digital transformation means reimagining the value streams and processes across all business functions. Our platform solution empowers you in your journey towards a more agile, risk-aware and collaborative procurement ecosystem.

why? Modern high-performance supply management increasingly relies on data consistency of aggregated information from all parties involved. Titan SIM increases transparency, efficiency, and associated savings for your organization.

how? Titan SIM is plug-and-run. Standalone without the need for endless system integration projects. Expand instantly your capabilities for supplier discovery, data transparency, risk, contract and rate card management and collaboration: Complementary to your existing source-to-contract, purchase-to-pay, or risk management systems.

Suppliers

We provide best-in-class supplier information to potential buyers and help suppliers to streamline their buyer interactions.

why? The future of sales management is based on integrated platforms that connect organizations with diverse buyers, minimize administrative efforts, and open opportunities for new sales. Titan SIM increases efficiency and market visibility for your organization.

how? Our platform provides a central data source for buyers to scout, evaluate, compare and collaborate with suppliers. All data, ratings, and benchmarks are delivered from buyers, trusted data feed providers, and suppliers.
